### INTENDED USE

Fabrics washing aid as bleaching and home cleaning and as sanitizing.

### HOW TO USE

**Hand washing:** dilute 1 glass (100 ml) of Bleach in 5 litres of cold water (if stubborn, coffee, wine and fruit stains, increase the dose). Immerse the garments and let them soak as needed. Rinse and proceed with the usual washing.

Do not use the pure product on fabrics. Do not use the product on wool and silk. Do not use the product together with acids, detergents, ammonia and soap.

**Washing machine:** for machines with automatic bleaching: follow the manufacturer's instructions. For the others, put all the whites in the washing machine and select the shortest wash cycle. While the water is running, pour a glass of Bleach into the detergent compartment, without adding the detergent. After spinning, add the rest of the laundry, then proceed with washing with the usual cycle and usual detergents.

**Home cleaning:** for the daily hygiene of hard surfaces, floors, tiles and bathroom fixtures, dilute 1 glass of Bleach for every 2 liters of water. For the toilet, pour 1 glass of Bleach along the walls and leave to act, then rinse.

Attention! Do not use pure on metal surfaces. Do not use on wood and delicate surfaces.
